

Paul & Diner 'Generalized Locality'
 Helv. Phys. Acta. (1967) 40 537.
 refers to Pauli (1932) Collected papers p. 608.

define notion of local observables
 so that observables (populations) for
 overlapping space domains need
 not commute.

Sp and distance of \bar{F}_D commute
 where $D \rightarrow \bar{F}_D$ is system raised
 measure.

Parakee's own created features?

How substantial is the gap?
Parakee concepts drop out of QFT?
no TI

Superposition = Extended Parakee Interpretation?

Myers to realism

Puff is a young dog
at a less than short.

Predictive
Success
of QED
not for
realism?

J. Cushing 'Models, High-Energy Theoretical Physics
and Realism'. PSA 1982

1. Use of abstract formal models
2. plausibility of creation / justification process
also objective / subjective, rational / sociological
3. Reality of theoretical entities.

p.7 Scientists as clever people who make their
theories work, rather than as discoverers laws
of nature which preexist outside their own minds

Locke Powers - 184 Sci 3 (1971) 233.

Paen shows of this paper is 1940 system

that solid particles are blobs etc

ones of matter, factor of volume

and attracted pairs are of space

of matter - which are no more

than force different through

space → Faraday's Concept

of the physical field.

From mass of particles, Hutton

is particles

B. E. Mann *Notes of Field Notes* - - H. S. M. Feb 6 (1975) 133

By and 19th C. mechanical nature of slurs in a vast
ed from better material particles had been
repeated by C. H. - had as a rep. material
containers, plumes, & material slurs as
described standard - granular products of the
plumes.

1876 W. K. Clifford 'On the Specimens
of Matter' - Proc. Camb. Phil. Soc. (1876)

I have generally concentrated on
the British Catalogue etc etc
C. H. Woodman (as offered to
L. O. B. S. L.). Then here of the pieces Larmor.

1.287 *What from Enters*

"According to C. H. Wood is equally and
fixed qualities; on water in the sense
itself exists."
